AKSHAT BANGA

AI Product Engineering | Generative AI | Product Strategy | Technical Program Delivery
New Delhi, India | akshatbanga848@gmail.com | +91 8130064485 | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

AI engineer and product-focused strategist combining hands-on development of agentic AI systems, APIs and enterprise automation with product planning, research, stakeholder coordination and delivery ownership. At YourNest Venture Capital, built investment intelligence and founder operations platforms spanning requirements, system architecture, development, testing and rollout. Previous cloud operations experience at Jio Platforms; MSc in International Management strengthens commercial analysis and strategic decision-making.

TECHNICAL AND BUSINESS SKILLS

Engineering: Python, SQL, FastAPI, REST APIs, PostgreSQL, Redis, JavaScript, Docker, Kubernetes, Git, CI/CD, pytest
AI / Automation: LLMs, Agentic AI, LangGraph, LangChain, RAG, FAISS, Vector Search, NLP, Ollama, n8n, Scikit-learn
Product / Strategy: Product Lifecycle, Requirements Analysis, Process Design, Technical Roadmaps, Stakeholder Management, Market Research, Investment Thesis Analysis, KPI Reporting, Risk Governance
Cloud / Operations: AWS, Azure, GCP, Prometheus, ELK Stack, GitHub Actions, PostgreSQL Administration

PROFESSIONAL EXPERIENCE

YourNest Venture Capital **Jun 2026 – Nov 2026**
AI Transformation Expert (Intern) – Product Engineering, Research & Strategy *Gurugram, India*

- Owned development workstreams for **DealScreener** and the **Founders Resource Portal**, translating investment-team and founder needs into requirements, workflows, technical architecture, implementation, testing and release plans.
- Built multi-agent investment screening with RAG evidence citations, thesis matching, market/financial research, deterministic scoring, decision explanations and human-in-the-loop review using Python and FastAPI.
- Developed founder-focused product workflows with PostgreSQL-backed APIs, company-scoped permissions, resource libraries, support requests, multi-tier approvals and audit trails; supported release validation and VM deployment.
- Connected engineering decisions to business priorities through investment research, operating-process improvement, stakeholder feedback, feature prioritization and governance controls; also developed finance and ESG tracking automations.

Deloitte South Asia **Jan 2026 – Feb 2026**
Intern – EDUT, Technology and Transformation *Gurugram, India*

- Worked on an **AI-enabled education newsletter intelligence dashboard** for monthly education KPIs and state comparisons; developed a public portfolio rebuild with FastAPI, FAISS semantic search, Ollama-based question answering, Chart.js dashboards and retrieval fallback on sample data.

Unified Mentor **Oct 2025 – Jan 2026**
Data Science Intern *New Delhi, India*

- Developed Python forecasting and BERT-based NLP pipelines for classification and sentiment analysis, including preprocessing and validation of datasets exceeding 100K records.

Jio Platforms Limited **Oct 2023 – Dec 2024**
Assistant Manager – AIOps, CloudXP and Jio HCMP *Navi Mumbai, India*

- Supported Jio CloudXP and NIC Meghraj 2.0 cloud services with infrastructure monitoring, incident troubleshooting and production reliability operations using Prometheus, Pulse Agent and Pulse Gateway.
- Coordinated controlled software upgrades and rollbacks across sandbox, replica and production environments; worked with Docker/Kubernetes, ELK, Cassandra, PostgreSQL and MySQL.

SELECTED PRODUCT AND AI ENGINEERING PROJECTS

DealScreener – Investment Intelligence Platform Python, FastAPI, RAG, PostgreSQL

- Designed an end-to-end deal research and decision workflow with specialist agents, evidence-grounded outputs, thesis alignment, explainable investment scoring and human review gates.

Founders Resource Portal – Founder Operations Platform FastAPI, PostgreSQL, RBAC, pytest

- Built a founder and internal-team portal with permission-based access, approved resources, company-specific information, support workflows, audit controls and automated API tests.

Expenses Voucher Automation – Finance Workflow n8n, Document Processing

- Automated expense-bill intake across document formats and preparation of structured founder expense vouchers, reducing repetitive manual processing steps.

ESG / ESAP Tracker – Portfolio Oversight ESG, ESAP, Action Tracking

- Developed tracking workflows for ESG commitments and Environmental and Social Action Plan tasks, organizing ownership, progress and follow-up visibility for portfolio oversight.

ASIS – Multi-Agent Strategic Intelligence Platform LangGraph, FastAPI, Next.js, LiteLLM

- Built an eight-agent strategy analysis system combining market, competitor, risk and financial assessments with cited management-framework exhibits, decision briefs and implementation roadmaps.

EDUCATION

MSc International Management, University of Southampton Aug 2025 – Sep 2026
Focus: Strategic Operations Management, Risk Taking and Decision Making, International Marketing, Digital-Age Career Management
BTech Computer Science, Amity University, Gautam Budh Nagar 2019 – 2023
