AKSHAT BANGA

AI Generalist | Transformation Expert | Low-code / No-code AI | AI Tools Expert | Generative AI
New Delhi, India | akshatbanga848@gmail.com | LinkedIn | GitHub | +918130064485

PROFESSIONAL SUMMARY

AI Generalist and transformation expert who turns manual work into AI-driven workflows using low-code / no-code automation (n8n) and the right AI tools, and builds custom AI when a problem needs it. Skilled in LLM apps, RAG, multi-agent systems, NLP, computer vision, forecasting, and governance using Python, LangChain, LangGraph, FastAPI, Streamlit, Docker, Kubernetes, AWS, Azure, and GCP. Experienced in enterprise cloud platforms at Jio Platforms and in building recruiter-facing AI products with measurable automation, accuracy, and deployment outcomes.

TECHNICAL SKILLS

AI/ML: Python, TensorFlow, PyTorch, Keras, Scikit-learn, XGBoost, BERT, Transformers, CNNs, LSTMs, NLP, Computer Vision, Time Series
Generative AI: RAG, Agentic AI, Multi-Agent Systems, LangChain, LangGraph, ChromaDB, Qdrant, LiteLLM, Prompt Engineering, LLM Apps
MLOps/Cloud Ops: Docker, Kubernetes, CI/CD, MLflow, FastAPI, Streamlit, Prometheus, Pulse Agent, ELK Stack, Model Monitoring
Cloud/Data: AWS, Azure, GCP, Terraform, Cloud Build, Cloud Run, PostgreSQL, Redis, Cassandra, MySQL, MongoDB, SQL, REST APIs

PROFESSIONAL EXPERIENCE

YourNest Venture Capital June 2026 – November 2026
Intern – Strategy and AI Gurugram
- Built a multi-agent AI workflow automating the entire dealflow process end-to-end, from deal ingestion to final investment verdict.
- Engineered deterministic scoring models evaluating thesis alignment, market performance, moat, financials, and industry readiness.

Deloitte South Asia Jan 2026 – Feb 2026
Intern – EDUT Technology and Transformation Gurugram
- Architected AI-driven transformation solutions using LLMs, RAG pipelines, and agentic workflows for enterprise-scale use cases.
- Engineered LangChain-based multi-agent systems with vector database integration, reducing manual data-analysis effort by 40%.
- Developed Generative AI prototypes using OpenAI APIs with GCP/Azure-ready deployment patterns for enterprise AI adoption.

Unified Mentor Oct 2025 – Jan 2026
Data Science Intern New Delhi
- Built a next-day stock-price forecaster with technical indicators and time-series CV (RidgeCV, hold-out MAPE 1.23%), compared with XGBoost.
- Built TF-IDF ticket classification (8.5K tickets), a donor-retention classifier (ROC-AUC 0.77) and an Isolation Forest web-traffic anomaly detector.

Jio Platforms Limited Oct 2023 – Dec 2024
Assistant Manager – CloudXP and Jio HCMP Navi Mumbai
- Supported Jio CloudXP and NIC Meghraj 2.0 cloud operations across observability, monitoring, agent reliability, and production readiness for enterprise AI and GenAI-enabled workloads.
- Monitored Prometheus, Pulse Agent, Pulse Gateway, and service availability metrics to improve reliability of cloud platforms used for automation, analytics, and AI operations.
- Deployed Pulse Agent, Pulse Gateway, and Prometheus updates across sandbox, replica, and production servers using controlled release and rollback practices.
- Supported Docker/Kubernetes clusters, LaaS pods, ELK Stack, Cassandra, PostgreSQL, and MySQL to strengthen scalable infrastructure for cloud-native and AI operations.

C-DOT | Feynn Labs Feb 2022 – Jul 2022
ML Trainee / Intern New Delhi / Remote
- Built deep learning and computer vision models using PyTorch, TensorFlow, and OpenCV for classification and signal-processing workflows.

SELECTED AI ENGINEERING PROJECTS

ASIS Strategic Intelligence Platform LangGraph, FastAPI, Next.js, LiteLLM, PostgreSQL, Redis, Qdrant, GCP
- Built an 8-agent enterprise decision-intelligence system generating cited strategic briefs, roadmaps, SWOT, executive summaries, and PDF reports.
- Implemented FastAPI backend, Next.js frontend, SSE tracking, Docker assets, Terraform, CI/CD, and GCP deployment structure.

AI Governance and Risk Management Platform – AEGIS LangGraph, Streamlit, SHAP, RAG Auditing
- Created a multi-agent audit platform for ML and GenAI/RAG systems covering fairness, drift, explainability, prompt injection, and citation checks.
- Automated PASS/FAIL/REVIEW controls, risk registers, remediation actions, workflow traces, and audit-ready PDF packs.

AI Analytics Dashboard Streamlit, Prophet, Plotly, Pandas, Natural Language Analytics
- Developed an AI analytics product with automated insights, anomaly detection, forecasting, semantic KPI catalog, and natural-language queries.
- Added executive dashboard cards, dynamic visualizations, data export, statistical summaries, and stakeholder-ready reporting workflows.

Degraded Indic Script Classifier TensorFlow/Keras, OpenCV, VGG-16, Docker, Kubernetes
- Trained CNNs to identify the script (Devanagari vs Bangla) of 7.6K degraded Ekush character images, with VGG-16, DenseNet and ResNet scripts.
- Packaged inference workflow with Streamlit, Docker, Kubernetes assets, testing structure, and modular deployment-ready services.

EDUCATION

MSc International Management, University of Southampton, Delhi Campus Aug 2025 – Sep 2026
BTech Computer Science, Amity University, Gautam Budh Nagar 2019 – 2023
